Now that summer is here there is a greater need to stay on top of hair removal in all areas. With all the new products hitting the shelves at the same time choosing a product is not always an easy task to do without feeling like you have just wasted your time and money.

To help you avoid all the misses I, along with several friends, have sampled the newest hair removal products and decided on the best products.

Best All Natural Hair Removal Products- Shobha Sugar Gel and Parissa 2 in 1 Roll-On Body Sugar

The list of all natural hair removal products keeps getting longer and longer, and even though I don't think they work as well as other products I still love them for the ingredients, fragrance, and therapeutic results. Shobha Sugar Gel gets my vote for the best all over natural hair remover. The ingredients, sugar and lemon juice, can't be any safer. The Parissa 2 in 1 Roll-On Body Sugar is best for small target areas such as the face. Two applicators make it possible to cover the body and face, but I only received great results when I used the small face applicator. A plus with both products is the ability to use them cold, so if a quick touch up is necessary you don't have to bother warming the product up.
