## Shobha Sugaring Kit

Cancel that bikini wax, because there's finally an at-home kit that takes care of those nether-regions! The Shobha Sugaring Kit is a hair-removal system that's just like wax, except with an all-natural, sugar-based solution. And all-natural means you're less prone to allergic reactions, um, *down there* that can be caused from artificially produced waxes. Plus, the kit contains all you need to complete the deed, from powder to strips to an application spatula. Sweet!
