retweet

According to the [American Cancer Society](#), it has been suggested that "talcum powder may be carcinogenic (cancerous) to the covering layer of the ovaries." This happens when talcum powder particles applied to the genital area, sanitary napkins, diaphragms, or condoms migrate through the vagina, uterus, and fallopian tubes to the ovary.

So before you reach for the Shower to Shower, as an alternative opt for a talc-free powder like [Shobha's Talc-Free Powder \(\\$7\)](#). Shobha's powder is made with natural, organic ingredients and is free of parabens, artificial color, and fragrance. Here's what else it contains:

- corn starch, kaolin & oat kernel - absorb
- marshmallow root - soothes & disinfects
- calendula & lavender - calm
- white tea - protects
