

Q “How can I get a longer-lasting shave?”

A Extend the time between your get-sleek sessions by shaving at the end of your shower, when the warm water has expanded pores, bringing hair follicles closer to the surface. “This helps the blade cut hair nearer to your legs,” says Shobha Tummala, owner of Shobha Salons in New York City.

My de-stubble duo: five-blade **Venus Embrace Razor** (\$13.99, drugstores) and exfoliating **Skintimate Moisturizing Cream Shave in Revitalizing** (\$3.99, drugstores).
