EYES

• The best brows on television might just belong to *Blue Bloods*' **Bridget Moynahan**. To get her perfect shape, makeup artists suggest using **Shobha's** brow pencil in Earth, a paraben- and fragrance-free formula that acts like a powder and is easy to blend. \$16, myshobha.com

• Australian makeup line **Zuii Organics** is made from flowers, essential oils and minerals. "They have beautiful eye pigments, which can be difficult to find in organic products," says makeup artist **Paige Padgett**, who gets **Jillian Michaels** in shape (beauty-wise) for her appearances on *The Doctors*. \$21.75, zuiiorganics.com

SKIN CARE

• When New York makeup artist **Jessa Blades** discovered that the popular "gentle" cleanser she used included potentially toxic chemicals, she decided to create her own face wash. **Calendula Cleansing Grains** is made with just four ingredients—all organic: milk powder, chickpea flour, rose petals and calendula flowers. \$20, bladesnaturalbeauty.com

• Makeup artist **Tasha Reiko Brown**, who works with dewy-skinned **Florence Welch** of *Florence + the Machine*, says she's obsessed with **Rosewater & Lavender Floral Water** from **Sensuous Beauty**. "It's a nice midday pick-me-up for tired skin, and also great to prep the skin for makeup," says Brown. \$15, sensuousbeauty.com

• **Revolution Organics All-Over Skin Crème** moisturizing stick can be used for everything from relieving chapped lips and hands to taming flyaways. Almost every makeup artist who's green (and many who aren't) totes this multitasking product. \$28, revolutionorganics.com

LIPS

• **Kat Dennings** of *2 Broke Girls* has a pillowy pucker that many women would kill for. If you have lips like hers, Arnett suggests skipping lip gloss, because a shiny finish may make luscious lips look too large. Instead, she recommends a lipstick with a soft stain, like one from **Primitive Makeup**, the first cosmetics company to earn the Jane Goodall "Good for All" seal of approval. \$17.50, primitivemakeup.com

• If your pout could use some plumping, try **Bite Beauty Lip Shine**, glosses that impart a sophisticated sheen without sparkle. Good news for your smooching sweetie: All the ingredients are pure enough to eat. \$20, sephora.com
