I'm always being asked what I love in terms of beauty items. This includes a number of items that I use a lot versus those that are new to me but are definitely in my routine! I have been a fan and am obsessed with [Koh Gen Do](#) which in addition to having a fab beauty line, they have a number of skincare items that are a must. I have enjoyed using their Body and Bath Body Milk as well as their Body Wash which is like having a spa treatment to start and end your day. When it comes to the face, I love [L'Occitane](#) exfoliating gel. For a quick rinse (especially in this heat) I suggest [Shobha's](#) rosewater cleansing cloths which I love whether I'm getting my brows threaded at their salon or as a refresher. When it comes to my lips, when I am keeping it simple - [Evolution of Smooth](#) is the perfect solution and super addictive. Finally, I love a good dark nail color and when I'm not rocking hues by [Butter London](#), you can find me in [Essie](#) this hue is Wicked.
