There are times when I know that I am traveling over night and not by plane (perhaps I'm hopping to Long Island, Jersey or Philly), then I know that I can bring my favorite beauty items without being concerned about taxing TSA issues! That means I simply have to pop everything into my bag (loving this [Pierre Hardy](#) bag which is an essential for overnight or as a carry on for a flight). Bags like this also work when I am prepping for an [HSN](#) segment as I can put so many items in there without having to have multiple bags and can unpack quickly within my green room. As EVERYONE knows, I love my [Clarisonic Plus](#) as I can alternate between the smaller and larger head for my face as well as for the rest of my body. This is a must and you always feel squeaky clean when you're done using it a fab mini spa. I obsess over [Korres White Tea Facial Gel Cleanser](#). Being a tea fan this is fabulous for my face and I am a big believer in after cleansing my face, to soothe it with my [Shobha Rosewater Toner Mist](#) (it's great as a refresher as well as to just allow your skin to rest - between this and the gel it's never too far away from me). When it comes to a nurturing body wash, [Dove](#) is always a great way to keep your skin looking and feeling amazing! Being someone who grew up on Dove and to this day I use their deodorants - this is always something to have within your routine. Finally, make your skin look dazzling within moments with [Michael Kors'](#) glimmer body creme.
