

ANGELA:

You may wonder many things about this photo, but I cannot tell you.

- 1. Where do you get your eyebrows done?** Shobha.
- 2. How did you find out about that particular place/person?** I used to go to Shobha for my other hair removal needs and was lucky enough to get Jamuna as my hair removal technician. She is spectacular and though it's painful she gives you exactly what you ask for.
- 3. Tweezing/threading/waxing: do you have strong feelings about any of those in particular?** For the amount of hair on my face tweezing would be too time consuming and waxing makes me look like a raccoon. Given my hair situation threading seems to be the only practical option.
