THE MEN'S WAXING CATEGORY:

"It's definitely not just the downtown guys getting waxed anymore," agrees Jennifer Pesce, hair removal expert for Shobha salons in NYC, who says the chain has seen a rise in male clients by almost 30% this year alone. "

"There's no question that I've seen a surge in men coming in for waxing by at least 25% in just the last year," says Lidia Tivichi, a clinical esthetician who specializes in men's grooming and founder of Maris Dusan Spa in NYC. "Besides waxes—aka: The Male Brazillian—popular areas for guys include feet & toes, butt, back, & chest."
